d. Letter of the Minister of Economics and Traffic, Reparation Branch of Provincial Government of Saxony-Anhalt, file No. 4241/176 Schroe/Alb. dated 30 September 1948 to the German Economics Commission, Main Department for Economic Planning, Sub-Section GSOW with compilation of all Soviet orders received per 1 October 1948 according to order No. 40 of 13 March 1948 (see Annex 4).

e. Secret compilation of orders of the Soviet Consumer (GSOW) of Provincial Government of Saxony-Anhalt according to order No. 40 of 13 March 1948 per 1 November 1948 with a general survey of orders page 1 through 12, arranged according to Main Groups of the General List of Goods per 1 November 1948 (see Annex 5).

f. Top secret letter (sealed material) of the Minister-President of Province of Thuringia, Office of Provincial and Economic Planning, Main Department Procurement of Material 4/13/9971 - Ku/Hsch 35/48 g VS of 4 November 1948 to the German Economics Commission Main Administration for Economic Planning, Sub-Section: GSOW with compilation of all orders of the Soviet consumers received in October 1948, and a letter of the Minister-President of Province of Thuringia 4/13/9971 Ku/Ro, dated 30 September 1948 to the German Economics Commission as well as draft of delivery orders of the GSOW etc. of the Minister-President of Province of Thuringia, Procurement Section I - III - Hm/H.

2.a. The compilation of reparation orders of the Soviet consumers (GSOW) has not been equally carried through by the Province of Saxony, Saxony-Anhalt and Thuringia. The first compilation of Province of Saxony dated 11 October 1948 (see Annex 1) has been arranged incorrectly. Only the second compilation of 4 November 1948 (see Annex 2) has been arranged according to the groups of the General List of Goods of the Soviet Zone of Germany.

b. The compilations of the Province of Saxony-Anhalt of 23 September 1948, 30 September 1948 and 1 November 1948, however, render a clear survey (see Annexes 1, 7 and 5). The last survey of 1 November 1948 (see Annex 5) contains the compilation of all reparation orders of the GSOW, not only arranged in accordance with the order of the groups of the General List of Goods, but also (individually) listing the firms executing these reparation orders. In this connection it is of interest that Soviet Corporation plants such as the Soviet Corporation iron and steel works in THALM (.. 52/D 25) refused to comment on quite a number of orders (see Annex 5 pages 3 and 4).

c. The compilation of the Province of Thuringia has not been arranged according to General List of Goods groups but the individual firms executing the reparation orders are listed (see Annex 6). By this the individual production places can be exactly located.

3. a. Up to November 1948 the total value of the Soviet orders ("naryade sakaze") in the Soviet Zone of Germany amounted

for Province of Saxony	109,464,714.03 eastmarks
for Province of Saxony-Anhalt	44,597,500.-- eastmarks
for Province of Thuringia	24,630,023.-- eastmarks
Total	178,693,037.03 eastmarks.

Total:

goods eastmarks 86,260,800.-- worth - about 48 percent of the prescribed quota.

4. As there is no information on reparation orders placed by the Soviet consumers in the Soviet Zone of Germany at the Provinces of Mecklenburg and Brandenburg, compilations for the Province of Saxony, Saxony-Anhalt and Thuringia do not give a complete survey of the reparation deliveries to Soviet consumers (GSOV) filled by the Soviet Zone of Germany. Mecklenburg and Brandenburg, being industrialized on a small scale, have reparation deliveries that add up to only comparatively small amount as compared with the deliveries of Saxony, Saxony-Anhalt and Thuringia.
